GOURAV DAS

Full-Stack Software Engineer (Next.js | React | Node.js | Cloud)

Kolkata, West Bengal | gouravdas350@gmail.com | +91 89104 18563 | Portfolio | GitHub | LinkedIn

PROFILE SUMMARY

Full-Stack Software Developer specializing in Next.js 16, React 19, and the MERN stack with hands-on experience building distributed cloud systems, real-time collaboration engines, and enterprise SaaS platforms. Architected **FinPulse SaaS** (multi-tenant serverless PostgreSQL), **ShopHub** (Redis-cached e-commerce with Socket.io), and **NexusGraph** (FalkorDB knowledge graph). AWS Certified Cloud Practitioner with deep expertise in REST API architecture, database modeling, and microservice orchestration. Seeking an entry-level Full-Stack Software Developer or SDE role.

TECHNICAL SKILLS

• **Full-Stack & Web:** Next.js 16/15 (App Router, Server Actions, Server Components), React 19/18, Node.js (Node 20 ES Modules), Express.js 5, Django, RESTful API Architecture, Socket.io (WebSockets), JWT Auth, RBAC

• **Databases & Caching:** PostgreSQL (Neon Serverless), MongoDB (Atlas & Mongoose 9), Redis 7 (Cache-Aside, Sub-5ms), FalkorDB (Graph DB / Cypher), MySQL, SQLite, Drizzle ORM

• **Cloud & DevOps:** AWS (ECS Fargate, EC2, S3, CloudWatch, VPC, IAM) — AWS Certified Cloud Practitioner; Docker, Docker Compose, Nginx, GitHub Actions (CI/CD), Vercel, Render

• **Languages & Core CS:** JavaScript (ES6+), TypeScript, Python, HTML5, CSS3, Tailwind CSS v4; Data Structures & Algorithms, OOP, DBMS (actively practicing via NeetCode 150); Exposure to Big Data (Hadoop, HDFS, Spark)

FEATURED PROJECTS

FinPulse SaaS — Multi-Tenant FinTech Platform — Next.js 16, React 19, Neon, Drizzle | Live Demo → Aug 2026 – Oct 2026

- Architected an enterprise multi-tenant FinTech SaaS using Next.js 16 App Router, React 19 Server Components/Actions, and Neon serverless PostgreSQL with Drizzle ORM ($0 idle infrastructure costs).
- Implemented subdomain-level edge routing (**middleware.ts**) injecting isolated tenant branding (**x-tenant**), cryptographically verified Clerk webhooks (**Svix**), an immutable audit ledger (**audit_logs**), and a real-time macroeconomic shock simulator (Monte Carlo stress testing).

ShopHub — Real-Time E-Commerce & Redis Platform — React 18, Node.js, Socket.io, Redis, Mongo | Live Demo → Sep 2026 – Oct 2026

- Engineered a production MERN e-commerce platform with 40+ RESTful endpoints, 8 Mongoose schemas with TLS auto-detection, and Docker multi-container orchestration (Mongo, Redis, API, Nginx).
- Built collaborative group shopping via **Socket.io** room state sync and a **Redis 7 cache-aside layer** delivering **sub-5ms** read latencies with auto-invalidation; integrated Stripe & Razorpay payments with webhook validation and Web Speech API voice commerce.

NexusGraph — Autonomous Engineering Brain & Graph — Next.js 15, FastAPI, FalkorDB, Docker | Live Demo → Sep 2026 – Oct 2026

- Built an engineering intelligence platform on FalkorDB connecting decisions, microservices, and incident post-mortems into a property graph with a 3-agent orchestration system (Archivist, Guardian, Commander).
- Authored multi-hop Cypher queries (***1..5 hops**) and graph algorithms (**algo.pageRank, shortestPath**) executing in **<1 ms** to compute outage blast radius, dependency bottlenecks, and autonomous task creation.

VoiceSprint — Voice-Driven Agile Kanban Platform — React 19, Node.js, Socket.io, Gemini | Live Demo → Sep 2026 – Oct 2026

- Developed an Agile sprint intake platform integrating Wispr Flow voice dictation (**Alt+V**) and Google Gemini API for strict JSON parsing into structured P0-P3 tickets with auto-generated markdown specs.
- Synchronized an interactive drag-and-drop Kanban board in real time across team members using Socket.io bi-directional event broadcasts with zero page refreshes.

EXPERIENCE & TRAINING

Full Stack Web Development Trainee — Teknowgrade Pvt. Ltd — Full-Stack Web Development & Django (Remote) Feb 2026 – Apr 2026

- Built dynamic web applications using Django: engineered backend logic, user authentication, REST APIs, and relational schemas with hands-on CRUD operations, RBAC, and automated testing suites.

AWS re/Start Cloud Trainee — Tata Strive — Core AWS & Linux Infrastructure Jun 2026 – Oct 2026

- Provisioned and configured core AWS cloud services (VPC, EC2, S3, IAM, Security Groups), Linux administration, and network routing in an enterprise-aligned, project-driven curriculum.

Big Data Analytics Bootcamp — NIELIT Kolkata (Govt. of India) — Big Data Technologies Feb 2026

- Completed a 90-hour government-sponsored program covering distributed Big Data systems (Hadoop, HDFS, Spark, Hive) and applied storage operations on Linux.

EDUCATION

B.Tech, Computer Science & Engineering — Future Institute of Engineering and Management (MAKAUT) | **CGPA: 7.56** 2026

Higher Secondary (Science, Class XII), Kendriya Vidyalaya Fort William, Kolkata (CBSE) — 2021 | 76.00% • Secondary (Class X) — 2018 | 61.20%

CERTIFICATIONS & HACKATHONS

• **AWS Certified Cloud Practitioner** — Amazon Web Services (Oct 2026) • **Environmental Hacks (Bharat Builds Tour)** — WeMakeDevs & AWS (Oct 2026)

• **Full Stack Web Development** — Teknowgrade Pvt. Ltd • **Oracle SQL Certification** — Udemy (16.5 hrs) • **Blockchain & Big Data Bootcamp** — NIELIT Kolkata
