

GOURAV DAS

Full-Stack Developer (MERN)

Kolkata, West Bengal | gouravdas350@gmail.com | +91 89104 18563 | [Portfolio](#) | [GitHub](#) | [LinkedIn](#)

PROFILE

Full-stack developer specializing in the MERN stack, with hands-on experience building a full-stack e-commerce platform (payments, admin dashboard, and a Gemini-powered AI shopping assistant) and a RAG-based document Q&A system using FastAPI, LangChain, and Gemini. Currently deepening cloud fundamentals through AWS re/Start. Looking for an entry-level Full-Stack / MERN Developer role.

TECHNICAL SKILLS

- Full-Stack: MERN Stack (MongoDB, Express.js, React.js, Node.js), REST API Architecture, JWT Authentication, RBAC
- Languages: JavaScript (ES6+), Python, Java
- Frontend: React.js, Vite, HTML5, CSS3, Tailwind CSS
- Backend & Databases: Node.js, Express.js, Django, MongoDB, MySQL, Oracle SQL
- Tools & Cloud: Git, GitHub, Linux, AWS (EC2, VPC, S3) — in progress via AWS re/Start
- Also exposed to: Machine Learning (scikit-learn), Big Data foundations (Hadoop, HDFS, Spark)

PROJECTS

E-Commerce Web Application — Full-Stack (MERN)

2026

[Live Demo →](#)

- Built a full-stack MERN platform (40+ REST endpoints, 11 route modules, 8 MongoDB collections) with JWT auth, OTP verification, password reset, and RBAC across admin/seller/buyer roles.
- Integrated Stripe and Razorpay payments, an admin dashboard for user/product/order management, and catalog features including filtering, reviews, and similar-product recommendations.
- Built a Gemini-powered AI shopping assistant into the platform, and hardened the API with Helmet, CORS, rate limiting, bcrypt, and input validation.

FinPulse SaaS — Next.js, React 19, Neon, Drizzle ORM

2026

[Live Demo →](#)

- Built an enterprise multi-tenant financial analytics and real-time collaboration platform (live market asset tracking, collaborative portfolios, white-labeled client portals) using Next.js 16 App Router with React 19 Server Components/Actions, Neon serverless PostgreSQL + Drizzle ORM, and Clerk auth with Svix webhooks.

RAG Document Assistant — FastAPI, LangChain, Gemini

2026

- Built a retrieval-augmented generation (RAG) system with a React/Vite frontend and a modular FastAPI backend (app/core, app/models, app/services) for document-grounded Q&A over uploaded PDFs.
- Used PyPDF + RecursiveCharacterTextSplitter for chunking, LangChain to orchestrate retrieval with Google Gemini, and Pydantic-typed schemas served asynchronously via Uvicorn.

Machine Learning Projects

2023 – 2025

- Fake News Detection (ML) — IIT Patna candidate-shortlisting assignment: TF-IDF + Logistic Regression classifier; 98.57% accuracy, 0.999 AUC-ROC on ~9,000 unseen articles.
- Heart Disease Prediction System (ML) — B.Tech Final Year Project: compared 5 classifiers (LR, KNN, SVM, Decision Tree, Random Forest); up to 82% accuracy.

Additional projects (Movie Recommendation System, Hadoop File System Management, Joke Generator app) on the portfolio site above.

TRAINING & INTERNSHIPS

AWS re/Start Cloud Trainee — Tata Strive

Jun 2026 – Present

- Provisioning and configuring core AWS services (VPC, EC2, S3), Linux administration, networking, and IAM/security fundamentals through a structured, project-based curriculum.

Full Stack Web Development Trainee — Teknowgrade Pvt. Ltd (Remote)

Feb 2026 – Apr 2026

- Built dynamic web applications using Django — authentication, backend logic, REST APIs, and database integration; hands-on CRUD operations.

Blockchain & Big Data Analytics Bootcamp — NIELIT Kolkata (Govt. of India)

Feb 2026

- 90-hour bootcamp covering blockchain fundamentals and Big Data technologies (Hadoop, HDFS, Spark, Hive); applied HDFS for storage and file operations on Linux.

Machine Learning Using Python — Ardent Computech Pvt. Ltd

Aug 2023 – Sep 2023

- Covered supervised/unsupervised ML algorithms and model evaluation; built a recommendation system as capstone.

EDUCATION

B.Tech, Computer Science & Engineering — Future Institute of Engineering and Management (MAKAUT)

2026

- CGPA: 7.56

Higher Secondary (Science), Kendriya Vidyalaya Fort William, Kolkata (CBSE) — 2021 | 76.00% • Secondary — 2018 | 61.20%

CERTIFICATIONS

- Advanced Software Engineering Job Simulation — Walmart Global Tech (Forage) • Front-End Software Engineering Job Simulation — Skyscanner (Forage) • Full Stack Web Development Certification — Teknowgrade
- Machine Learning Using Python — Ardent Computech • Oracle SQL Certification Course — Udemy (16.5 hrs) • Blockchain & Big Data Bootcamp — NIELIT Kolkata • DevOps Foundations — LinkedIn Learning
